Forecast for Monday 19 Apr 2021

Weather: A touch of grass frost and some short lived mist patches in the valleys around dawn. Staying dry throughout the day, with areas of high cloud making sunshine hazy at times, and with some fair weather cloud developing late morning onwards. Cloud is expected to remain clear of the summits and it should feel warm in the sunshine. Remaining dry with some clear spells through the evening.

Chance of cloud free mountain/hill tops above 800m: 100% with cloud staying clear of the summits.

Visibility: Any valley mist may briefly obscure views of nearby hills first thing, but otherwise visibility will be excellent with distant hills and landmarks visible.

Meteorologist's View

There will be some spells of strong sunshine through the day and with moderate UV levels sun protection is advised.

Forecast for Tuesday 20 Apr 2021

Weather: Dry with clear periods during the early hours of Tuesday morning with the risk of some valley mist patches forming for a time around dawn. The rest of the day will be dry with sunny spells. Some fair weather cloud will build from late morning onwards, but should remain well clear of the summits. Remaining dry with clear spells through the evening.

Maximum wind: Southerly 10-15mph.

Chance of cloud free mountain/hill tops above 800m: 100% with cloud holding clear of the summits.

Visibility: Any valley mist may briefly obscure views of nearby hills first thing, but otherwise visibility will be excellent with distant hills and landmarks visible.

Temperature: **Valleys:** Plus 2 Celsius becoming Plus 14 Celsius.
At 800m: Plus 5 Celsius.
Freezing level: Above the summits.
